

THE WASHINGTON POST

Tuesday, June 1st

Square

UPDATED!

2021 Annual HVAC Maintenance~

On-going Schedule

Please confirm your Permission to Enter & that your spare key is on file with the Concierge.

Apollo Mechanical will be escorted by a staff member by floor at all times.

Please be advised that Tower 2 will begin again June 7th, and a new schedule will be summarized the Post email.

Curtain Wall / Deck Coating SCHEDULE

On-going: With the membrane coating material delivered, the deck coating project has resumed, the work is on-going on the south side and will be completing installation of an additional swing stage at the '02, and South facing '03 decks to expedite the process. If there is no need for pressure washing on the decks in the units in the '09 stack going to '00, '01, and '02 stacks (the deck surfaces must be fully dried before the coating primer can be applied), TG will continue with the deck membrane on the '09 stack - some decks have been completed (starting with the top unit) going down. TG will be on the South elevation for at least the next 2-3 weeks.

They might on occasion need to work on Saturday starting no earlier than mid-June if there are too many rainy days during the week. Once the deck scope has started there can be no access, even during off hours. Please refer to the Post email and letter.
