Need Help With Your HVAC?

With summer now upon us you may notice issues with your HVAC cooling system. For assistance with HVAC maintenance please contact one of the following vendors that frequently service our towers....

Apollo : (425) 390-7227

Macdonald Miller: (206) 763-9400

Curtain Wall / Deck Coating

SCHEDULE TR 1

TOWER 1 - EXTERIOR SEALANT:

Update: The move of the swing stages will be made next week to the WEST Elevation to the '03, 04, and 05 stacks.

The '09, '00, '01, and '02 stacks are completed, HOWEVER, RDH AND Tatley Grund are still working through the last of the punch list on these stacks, if the swing stage is still present, please refrain from using the deck until the blue tape is cleared.

Please be advised that when the swing stage (and ropes) present outside your deck, the TG team is still working on that stack, and we ask that you NOT use, or be on the deck during working hours from 8:00 a.m. to 6:00 p.m. for the duration of the project if the swing stage is present. It is a hazard for anyone to be on their deck for things that may fall and the stage going up and down as required in order to complete the work in the stack.

The swing stage will be in place for the workers for the next 2-3 weeks, please stay off the decks during the weekdays Monday through Friday (8:00 a.m. to 6:00 p.m.) and Saturday if a make-up day is required

- **Stacks '03:** If you haven't already done so, items must be removed from your deck for washing and preparation of the coating.
- **STACKS '04:** If you haven't already done so, items must be removed from your deck for washing and preparation of the coating.
- **STACKS '05:** If you haven't already done so, items must be removed from your deck for washing and preparation of the coating.

Once the deck scope of work was initiated there can be no access, even during off-hours. Residents being allowed on the decks during off-hours can/will create issues related to the work such as spilling, pet pee on the deck, etc. That would require re-cleaning, possible adhesion issues, and general quality control issues.

We apologize for any unplanned delays and thank you for your patience and cooperation. For your privacy concern - please be aware of vendors will be outside your windows for this portion of the project - for the completion of the project on your

stack. Website News:

WST Board Meeting

Board Meeting will be held on

**Tuesday, June 29th, 2021,
ZOOM Conference at 5:30pm**

—All homeowners are encouraged to attend—

Fire Alarm Confidence Testing

WEDNESDAY— JUNE 30TH

8:00am-12:00pm

BOTH TOWERS:

Tower 1: FLOORS 17-9 AND

Tower 2: FLOORS 18-10

Alarms will sound inside the units as well as the common areas. This will be for testing only. No entry to units is required.

NOW SCHEDULED

Excessive Heat Watch

An Excessive Heat Watch will go into effect Friday into early next week. Saturday through Monday there will be "high risk" for sensitive populations.

Below are a few tips to stay safe during hot weather events:

- Stay indoors and in an air-conditioned environment if possible
- Drink plenty of fluids
- Plan strenuous outdoor activities for early or late in the day
- At first signs of heat illness, move to a cooler location, rest for a few minutes and slowly drink a cool beverage. Seek medical attention immediately if you do not feel better.
